THE PLACE TO BE ON MONDAY NIGHTS

Music makers and music lovers join together in the name of charity for thirteen historic performances combining the magic of music and the element of surprise in a celebration of the great masters of songwriting and the stars who made their music famous. Reminiscent of the great salons of yesteryear, these informal gatherings will be held in the elegant and intimate Oak Room, the original home of the famed Round Table, on Monday nights from February 14 through May 16. An audience filled with industry notables and surprise guests will hear acoustic performances of great songs, share behind-the-scenes stories and interact with some of the artists who helped shape our generation as well as preview some of the newest songwriting talent our industry has to offer.

This series has the potential to raise up to \$350,000 in charitable donations for the "Nordoff-Robbins Music Therapy Foundation," "Share Our Strength," "LIFEbeat" and others to be selected by our participating artists. Focusing on the power of song, its creators and its impact on today's world, "Songmasters Inside-Out" will also be used to launch numerous educational programs throughout the United States on the craft and legacy of songwriting.

We are committed to making "Songmasters Inside-Out" a standard in the music industry; not only by bringing the music of the masters to the lovers of the music, but also by offering generous contributions to charitable organizations that need our financial support. For art's sake, for heart's sake, join the fun and reserve your tickets for "Songmasters Inside-Out."
